Campus S.r.l. **saves time and improves its efficiency** with B1 Usability Package

Campus S.r.l. is working in the field of functional ingredients and raw materials for the "savory food" sector, especially the meat sector. The company has committed itself to the research of new methods for extracting and producing animal proteins and innovative vegetable fibers, it has created and defined a wide range of highly functional semi-finished products, and it was awarded acknowledgments and certifications at the international level.

Challenges

- Usability on updating master data.

Solution

- Massive updates, thanks to B1UP, are efficiently managed: using native queries for selecting records is a very helpful feature.
- Product is complete and improves usability in most aspects.

Results

- Process time performance on updating master data has been highly improved: now it's very fast.
- Intuitiveness, easy to use.

"USING NATIVE QUERIES FOR SELECTING RECORDS TO MANAGE IS A VERY HELPFUL FEATURE. BIUP IS A VERY USEFUL PRODUCT. PARTNER IS WELL KNOWING IT."

Massimo Merli / IT Manager
