

Centroflora Group improved by 80% over PCP, Quality and Production areas with Beas Manufacturing

Company: **Centroflora Group**
 Website: **www.centroflora.com.br**
 Industry: **Pharmaceutical**
 Employees: **250**
 Partner: **MSS Seidor do Brasil consultoria**
 Solutions: **Beas Manufacturing**

Centroflora Group was founded in 1957 in the city of São Paulo - Brazil and is today the leader in the production and development of standard plant extracts for health, personal care and nutrition industries in South America. They seek complete environment sustainability of their raw materials. This goal has been achieved by establishing partnership with small farming communities in order to develop the cultivation of special species as well as the sustainable management of native species.

“ *To have a future, you must have security. To be secure you need SAP Business One and SEIDOR team working.* ”

Fabio Bilicki dos Santos,
IT Analyst
