75% productivity increase for Paris 8, a retailer of Perfume and Beauty

For nearly 40 years, Paris 8 established itself as the reference in haute perfumeries. With 13 boutique stores and a central warehouse selling best-sellers alongside the latest novelties in perfume, skincare or make-up. Prestigious and exclusive brands to discover in Luxemburg and Monaco perfumeries.

Produmex WMS

❓ Customer Challenges

- Warehouse was managed using out-of-date tools resulting in many errors and inaccurate inventory.

- Processes were running manually and employees lacked trust in the data.

💡 Solution

- As Paris 8 decided to move to a professional warehouse management solution, it became necessary to migrate to a more powerful tool.

- Produmex WMS is seamlessly integrated with SAP Business One. Including its ease of use and process automation.

📊 Results

- Far more accurate inventory management including added discipline of the way collaborators can register the stock movements.

- Many processes were automated like MRP, stock transfers and more.

- Employees gained confidence in the system.

"It goes far beyond SAP's own solutions in terms of inventory management. Transactions on PDA's are easy to do for the users. It gives far more control over your stock"

Ann Vandermeer, General Manager
