## BOYUM SOLUTIONS

B1 Usability Package, B1 Print & Delivery

## FEATURED PARTNER

N'ware Technologies

Since 2000, Trux Accessories has brought innovation to the trucking industry. Offering truck drivers unique and reliable aftermarket accessories. Precision and technology is key, from machined rolled stainless fenders to LED lights with dual functions that are found on Trux stainless cab, sleeper panels and air cleaner light bars. Trux has a vast collection of LEDs, Work lights, Headlights, Fenders, Exhausts and Stainless trims.

## Customer Challenges

- Manual and time-consuming processes of creating reports.
- Fulfilling orders based on warehouse stock levels and generating delivery notices.
- The controller had to come into the office to manually set up blanket agreements for the daily exchange rate.
- Manage role-based authorization to access sensitive information.

## Solution

- Exchange rate synchronization ensures accurate rates are charged to clients every day.
- Forms and authorization to ensure security and compliance.
- Multi-warehouse order fulfillment based on inventory availability.
- Process automation.
- Shipping notifications emails.

## Results

- Cost-savings in time spent manually generating reports and sending customers delivery notices/tracking.
- Reporting automation to save time across the entire business
- Cost accuracy (exchange rate).
- Visibility over daily consolidated invoicing volume.

*"WITH BOYUM, WE SAVE MORE THAN 10 HOURS EVERY DAY. IT HAS HELPED US ENSURE THAT WE ARE SECURE, COMPLIANT, AND EFFICIENT."*

Dr Anthony Ofoegbu / Manager SAP Systems & IT Support
