HCP medipro s.r.o. is located in Olomouc, Czech Republic, and is part of the Health and Personal Care Stores Industry. They supply medical supplies from reputable manufacturers. Due to the breadth of their portfolio, they are able to cover and combine most medical disciplines. Their customers can receive the material exactly according to their needs under the most advantageous conditions.

Customer Challenges

- Slow and time-consuming data entry that resulted in many errors.
- Limited functionality of the basic SAP Business One product, reduced productivity.
- Not user-friendly experience.
- Unable to effectively manage production technologies.
- Errors, drawbacks, loss of time.

Solution

- The SAP Business One standard does not offer the benefits that B1UP and Produmex Scan have. Active, responsive, motivated, and success-driven partner. Helped to adapt SAP Business One to our needs.
- Easy to use, simple system customization, and efficient implementation.

Results

- Automatization and increase in efficiency.
- Quick return on investment.
- Complete transparency and traceability in a single system that lets you manage all the necessary business processes.
- Ability to automatically sending documents to clients, including attachments.
- All warehouse operations like collection, receiving, and packing are sustained by Produmex Scan.

"THE INTRODUCTION OF THE BOYUM PRODUCT HAS GREATLY CONTRIBUTED TO THE GROWTH OF OUR COMPANY AND THE EFFICIENCY OF ORDER MANAGEMENT AND WAREHOUSE OPERATIONS."
