Company Limited

GO-PAK Vietnam Ltd is a British company, specializing in manufacturing disposal products (kitchenware) made from plastic. With the desire to optimize production costs, human resources, and machine operating time to achieve the highest productivity, GO-PAK has applied SAP ERP to production management. The partner InfoAsia is really honored to cooperate with the company in this project.

## Customer's Challenges

- How to deal with thousands WOs schedule, especially limited by molds and machines.

## Solution

- Apply BEAS APS module and manufacture module to run forwards and backwards schedule calculations.

## Results

- Save planner job loading.
- Schedule planning job from 1 week to 30 mins.
- Increase efficiency of productions 100%.
- High acceptance by employees due to the simplicity and support.

*"TO BE HONEST I AM VERY IMPRESSED ABOUT THE SYSTEM AND HOW EFFICIENT IT IS. IN FACT, THIS MORNING I RECOMMENDED OUR PAPER FACTORY TO START USING THE SYSTEM AS WELL"*

Morten Meder / Management Director
