FEATURED PARTNER

Vision33 UK

Asmodee UK gains a **Flexible** and **Scalable System** with B1 Usability Package and B1 Print & Delivery

Asmodee UK is an established distributor of games, collectibles and toys both domestically and across Europe. With over 30 years experience, Asmodee UK seeks to provide the highest possible standards of service to our retail customers and board game café owners through providing a fantastic range of stock from an extensive number of publishers and establishing close working relationships.

Customer Challenges

- Searching for an integrated ERP capable of bringing together financials, order processing, purchasing, supply chain and other operational needs in a single system.
- Need for a flexible, scalable system.
- Desire to increase responsiveness to both suppliers and customers.

Solution

- User-friendly interface thanks to the integration of Boyum IT usability packages within the solution.
- B1 Usability Package and the B1 Print & Delivery bring the SAP Business One functionality alive and make it much more usable and user-friendly on a daily basis.

Results

- Scalability allowing for new functionalities or packages to be easily added on as needs or opportunities arise.
- Greater responsiveness to both game publishers and game retailers.
- Consolidation of all company and supply chain operations into a single, integrated platform.

"WHAT'S BEEN KEY IS SAP BUSINESS ONE'S FLEXIBILITY, THE INTEGRATION LAYER THAT ALLOWS US TO EASILY ADD ON ADDITIONAL PACKAGES THAT GIVE US THE FULL RANGE OF FUNCTIONALITY THAT WE REQUIRE."

James Greenman/ IT Director
